¡Hola!

Students will learn the basics of Spanish. From greetings, family members, colors, animals, the calendar, conjugate basic verbs, and many more!

Day 1: Greetings. Students will learn different ways to greet each other. Introduce family members and use verb "to be" (ser/estar).
Day 2: students are going to learn about animals and colors by using verb "to have" (tener).
Day 3: students are going to learn about "All about school."
Day 4: we are going to review everything that we have learned. A perfect way of learning while having fun!

WEB AND CODING AND PROGRAMMING, OH MY!

JUNE 24-27

Tech Camp with Ms. Laura Moss
10AM-Noon | Grades 5th-9th
Location: Comp Lab 1

- Cost: \$100 | Four camper minimum to hold camp
- Day 1: Web Design. Use HTML and CSS to add text, pictures, and color to your page. These skills are the foundation for all website creation and is a great activity for students who are interested in the internet and how websites come to life!
 - Day 2: Coding and Digital Art. Using p5.js, a free and open-source JavaScript library for creative coding, students create digital drawings, animations, and interactive sketches while also learning how to code.
 - Day 3: Coding and the Environment. Students start by exploring real world examples of how engineers are using computer programming to reduce the amount of litter in their community. Then, they choose between two programming adventures: Clean Up with Karel or Web Design for a Litter-Free Community.
 - Day 4: Programming and Robotics. Using Sphero+ robots and mobile app software, students program to compete technical tasks and send bots on student-created adventures.
