ACADEMIC SUMMER CAMPS

SPECTACULAR SCIENCE

**JUNE 5-8
JUNE 20-23**

STEM – Catapult Design and Building with Bro. David Relstab

Two sessions available:

Session 1: June 5-8
from 9AM-12PM

Session 2: June 20-23
from 9AM-12PM

Grade: 6th-9th (15 spots
available per session)

Cost: \$100

Location: Science Wing
(Enter Door 4)

Over the course of 4 days students will learn how to design, build, test, and compete in a competition to see who has the best catapult. Students will collect data and calibrate their catapults to create graphs and charts based on angles, projectiles, and energy.

Students will engage in Engineering Design activities while working in small groups to complete the project, additionally they will complete individual projects to take home throughout the week.

Learn about art while enhancing your skills at this annual summer camp! From sketching to painting and more, student artists will create masterpieces while having a little fun. And, we'll head to the Art Institute for a field trip to learn more about the greats in art history!

SPEAKING OUT LOUD

JUNE 12-15

Speech Camp
with Mrs.
Marietta Harris

June 12-15, 9-11AM

Grades: 5th-8th

Cost: \$100 (must have 8
enrolled to run the camp)

Location: English wing
(Enter Door 14)

Speech camp takes your child's love for discussions and helps turn it into something that can set them up for success in high school.

Kids learn to make a well-articulated argument built on facts from research convincingly and concisely. This camp allows students to improve several skills, including interpersonal communication, critical thinking, research, and writing, through various types of speeches, presentations, and games. They will also meet like-minded peers with the same drive and eagerness to have their voices heard and develop friendships.

YUMMY IN THE TUMMY

JUNE 12-14

Pastry Decorating Camp
with Mrs. Allie Rios

ACADEMIC SUMMER CAMPS

WEB AND CODING AND PROGRAMMING, OH MY! JUNE 5-8

Tech Camp with Ms. Laura Moss

11AM-1PM | Grades 5th-9th | Location: Comp Lab 1 | Cost: \$100

- Day 1: Web Design. Use HTML and CSS to add text, pictures, and color to your page. These skills are the foundation for all website creation and is a great activity for students who are interested in the internet and how websites come to life!
- Day 2: Coding and Digital Art. Using p5.js, a free and open-source JavaScript library for creative coding, students create digital drawings, animations, and interactive sketches while also learning how to code.
- Day 3: Coding and the Environment. Students start by exploring real world examples of how engineers are using computer programming to reduce the amount of litter in their community. Then, they choose between two programming adventures: Clean Up with Karel or Web Design for a Litter-Free Community.
- Day 4: Programming and Robotics. Using Sphero+ robots and mobile app software, students program to compete technical tasks and send bots on student-created adventures.
