

BUYBACK FAQ

We buy new and used books that are in good, resalable condition.

If your books are being used again by your school for the following year, we give premium pricing! National market value is paid for all other books.

You can sell books that were purchased anywhere. You can even check the pricing and/or sell college textbooks from another student.

Turn your buyback value into store credit and receive a 5% increase. This credit can be used when purchasing next year's course materials.

Online Buyback is open 24/7/365 with premium prices given during advertised times within your Online Bookstore.
